ABOUT EAA

Securing You Quietly

East Auto Access (EAA) founded in year 2000 as a security system provider. After 11 years in the industry, we officially launched EAA Technologies Sdn. Bhd. in 2011 in Kuantan, Pahang to cope the expansion of business. The company quickly built a reputation that expanded across the whole east coast region. Our innovative security solutions and experience in delivering the best and comprehensive system has become the go-to company for many in these challenging industries.

With over 17 years of experience and industry knowledge, the company has developed its own proprietary network of top-ranked security system companies, gaining reach, flexibility, and expertise that no other security system company can claim.

We work with various international and local partners that provide top notch security system equipment in the industries, ranging from analogue, digital to fiber optic solution.

We continue to strive to be a leader in the security system industry, focuses on life safety and property protection, we are well positioned to continue to meet our customers' evolving needs and compete with both existing and new competitors.

E

EFFICIENCY – We deliver excellent service in every experience

A

ACCURACY – Ensuring all perimeter are secured

A

ACCOUNTABILITY – Never take trust for granted.

Commencement Date : 21st September 2011

GPS : 3.820978, 103.338935

COMPANY ORGANIZATION CHART

Title ORGANIZATION CHART – EAA TECHNOLOGIES SDN.BHD.(961090-W)

SECURITY SYSTEM PROVIDER
EAA TECHNOLOGIES SDN BHD

- **AUTOMATED SYSTEM**

Our Automated Barriers Systems are designed to professionally control every type of access: car parks, shopping centres, hotels, hospitals, exhibition centres, amusement parks, airports and railway stations, as well as all other types of small or large public facility.

Eg: Turnstile, Barrier gate, Automatic Door/Gate

- **BURGLAR SYSTEM**

It takes careful consideration to properly protect and secure premises as security is a process and not just a product. More often, it is achieving the proper level of protection to adequately outmatch available threat. In protecting premises, there are 3 layers in total: Outer Compound, Building Access Point and Inside. At EAA, we provide different solutions which specialise in protecting every layer.

- **MONITORING SOLUTION**

EAA offering professional surveillance equipments based on innovative, superior quality and latest technology platforms. We install, maintain and perennially look after industrial, commercial and domestic CCTV installations on sites across Malaysia. We provide high quality CCTV surveillance systems tailor-made to meet your requirements. EAA the name you can trust!

- **ACCESS SOLUTION**

The access systems are used to secure entry and exits point of a physical property, as a personal identification and also to be used for other functions such as time and attendance management system.

The systems include digital keypads, card readers, fingerprint scanner, PC software, vehicle identification, vehicle loop detectors, photoelectric controls, sensors, and many others.

- **FIBER OPTIC**

EAA offers wide range of Fiber Optic Solutions for all types of data transmissions. Our fiber optic solution enables end users to transmit various forms of data within an implementation network radius. Securely and instantly!
